## LETTER OF AGREEMENT

This is a Letter of Agreement between the Design Media, Inc. ("DMI"), the licensee of Radio Station WQUL(FM), Griffin, Georgia and T. Wood and Associates, Inc. ("TWA"), the permittee of WEIZ (FM), Hogansville, Georgia. This letter constitutes approval by TWA for a document to be filed with the Federal Communications Commission by DMI for a Rule Making procedure to change the frequency of WEIZ from Channel 248A (97.5 MHz) to 239A (95.7 MHz) and to change the WEIZ transmitter site as a Class A 6,000 Watt facility. The purpose of this move is to allow WQUL to upgrade from a Class A facility.

DMI would be responsible for the following costs:

FCC filing for Rule Making.....	\$ 1,565.00
Engineering Fee.....	750.00
Legal.....	1,250.00
Locate and purchase transmitter site.....	7,500.00
Construct tower at new site.....	35,000.00
Relocate transmitter and transmission line.....	2,500.00
New or used antenna comparable or better than present antenna.....	5,200.00
WEIZ antenna change (labor).....	1,500.00
Relocate and change orientation of STL system.....	300.00
Retune transmitter and monitors.....	1,500.00
Reinstall AM station antenna.....	4,500.00
Incidental costs to WEIZ.....	2,500.00

All costs are approximate, based on estimates from a reliable engineering firm. Exact costs will be listed and agreed upon by DMI and TWA by separate document.

Agreement by signature below constitutes approval to proceed.

Agreed to on this the 12<sup>th</sup> day of August, 1992 By:

  
T. Wood and Associates, Inc.

  
Design Media, Inc.

## LETTER OF AGREEMENT

1. This is a letter of agreement which represents a binding contract between Design Media, Inc., licensee of Station WQUL(FM), Griffin, Georgia ("DMI") and Radio Georgia, Inc., licensee of Station WTGA-FM, Thomaston, Georgia ("RGI"). WQUL(FM) is a Class A station operating on Channel 249A. WTGA-FM is a Class A station operating on Channel 237A.

2. DMI wishes to upgrade WQUL(FM) to a Class C3 station which would operate on Channel 248C3. This change will be approved by the Federal Communications Commission only if WTGA-FM is assigned to Channel 266A or other new Class A channel and agrees to relocation of its transmitter site in connection with such change. DMI and RGI understand that the FCC will change WTGA-FM's channel, and thus enable DMI to upgrade WQUL(FM)'s channel only if RGI consents and agrees to such change. They also anticipate that upon such change of WTGA-FM's channel, RGI will be able to operate WTGA-FM on the new channel from its present site, which site will be short-spaced to another existing station.

3. RGI will provide DMI with its written consent to the change of WTGA-FM's channel for submission to the FCC in connection with the request to upgrade WQUL(FM)'s channel, and will take all other reasonable steps which will assist DMI in obtaining such upgrade from the FCC.

4. In consideration for RGI's consent and assistance, DMI promises to do the following:

(a) Pay \$2,000 in cash to RGI at the time this letter is signed, to cover any engineering expenses incurred by RGI in connection with its evaluation of DMI's proposal to change WTGA-FM's channel. If billing statements received by RGI before July 31, 1992 indicate that its legal and engineering costs have been less than \$2,000, RGI will remit the difference to DMI.

(b) Upon FCC grant of the channel changes contemplated by this Letter Agreement, DMI will provide to RGI the completed engineering portion of an FCC Form 301 which is to be submitted to the FCC by RGI in an application to implement the change of the WTGA-FM channel. DMI will also provide RGI a check for the amount of the FCC filing fee then required to be filed with that application.

(c) The application referenced in 4(d) will

specify operation at WTGA-FM's present site with Class A facilities. (i.e. with an ERP of 6 kW). If due to FCC spacing requirements, such application cannot be filed or, if filed, is dismissed or denied by the FCC, then DMI will provide RGI with the completed engineering portion of an application which will specify, at the option of RGI, either operation with a directional antenna from the present WTGA-FM site or nondirectional operation from a new site selected by RGI.

(d) Upon grant of the application referenced in 4(b) and (c) and the issuance of a construction permit to RGI, DMI will at its own expense construct the new or modified WTGA-FM facilities authorized by the RGI permit (to include the installation of a transmitter in good working order which will enable WTGA-FM to operate as a 6 kW Class A facility) and take all other steps which are reasonably necessary to comply with any condition included in such permit. All equipment and other property purchased, installed or constructed by DMI will be subject to the prior approval of RGI, which approval will not be unreasonably withheld. Acceptance and use of such equipment and property by RGI will be subject to the approval of RGI upon inspection of the completed new or modified WTGA-FM facilities, which approval will not be unreasonably withheld. Upon the completion of installation by DMI and the approval thereof by RGI, DMI will transfer ownership of all such equipment and other property to RGI free and clean of all liens, mortgages or other encumbrances. RGI agrees to grant to DMI any and all reasonable access to RGI's facilities so that DMI may perform its obligations in a prompt fashion.

(e) Upon grant of the application referenced in 4(b) and (c), DMI will pay to RGI the sum of \$10,000, to meet the costs which RGI may incur in connection with the change of the WTGA-FM channel, such as the printing of new stationary and rate cards, the publicizing and promotion of the new WTGA-FM frequency, incidental legal or engineering fees and so forth.

5. In the event that WTGA-FM relocates to a new site in connection with this Letter of Agreement, RGI will transfer

ownership of the present WTGA-FM site to DMI.

6. In the event that the FCC does not approve the channel upgrade for WQUL(FM), the obligations of each party under this Letter of agreement will no longer exist, provided, however, that RGI will retain ownership of all funds it may previously have received from DMI.

7. Upon material breach by RGI, and contingent upon there being no material breach on the part of DMI, DMI may enforce this Letter Agreement against RGI by obtaining an order of specific performance in addition to whatever other remedy may be available to DMI under law. Upon breach by DMI, and contingent upon there being no material breach on the part of RGI, RGI may declare this Letter Agreement null and void and, upon such declairation being delivered to DMI in writing, will have no obligation to operate WTGA-FM on the new channel. In the event of a breach by DMI, RGI will in any event retain all funds it may previously have recieved from DMI, and retain use and ownership of whatever documents, equipment and other property was provided to it by DMI pursuant to this Letter Agreement, in addition to securing whatever other remedy may be available under law.

8. This Letter Agreement shall be construed under the laws of the State of Georgia.

Signed this 19<sup>th</sup> day of June, 1992.
